"Angels on earth. This group shows more respect and compassion to clients and family than any doctor, friend or even some family can. My husband has loved it since day one. When he used to wander we always found him heading to the center, he loves them that much. They saved my sanity and give our whole family such a sense of peace knowing he is cared for better than anywhere in the world. They go above and beyond for daily activities and events. The staff communicate to families well, easy to work with and seriously, there isn't a word that can express how fabulous they are."

- Former Participant Caregiver

The Adult Care Center of the NSV, Inc.

Our Mission is to provide quality adult day healthcare to those with conditions impacting memory and independence.

Care is provided by trained and qualified staff. A registered nurse is on staff to monitor each participants health and well being.

"The ACC has helped many of my patients and their families adapt to this new phase in their lives. I highly recommend the ACC to any family desiring help caring for their loved one."

-Dr. Mariecken Fowler, MD
